

## McCARTHY SURNAME STUDY - PEDIGREE LIBRARY

---

The McCarthy Surname Study is primarily a Y-DNA project hosted by Family Tree DNA (FTDNA) and focusing on the paternal ancestry of those who have acquired the McCarthy (and variants thereof) surname in times gone by. This pedigree 'library' allows our Y-DNA testers to display detail of their reliably researched paternal ancestry back to their earliest known paternal ancestors, brief details of whom they will have inserted in the 'Paternal Ancestor Name' field of the Y-DNA Results Classic Chart at

<https://www.familytreedna.com/public/McCarthySurnameStudy?iframe=yresults> . It is hoped that correlation of Y-DNA test results with pedigrees will advance our members' interests where the likelihood of shared paternal ancestry is apparent from the two sources, encouraging dialogue and further research, and perhaps pinpointing areas where further testing may be of value.

The Study also admits autosomal DNA testers as long as they can each provide a reliable pedigree tracing back into a paternal McCarthy lineage within eight generations and they are willing to display these pedigrees and their contact information in this library.

The pedigrees are arranged initially by Y-DNA (sub) groupings which reflect the various McCarthy ancestral paternal lineages identified so far. These are arranged in the same order as presented on the aforementioned Y-DNA Results Classic Chart and are further described on the About Us>Results page of our FTDNA website at <https://www.familytreedna.com/groups/mccarthy-surname-study/about/results> . They are followed by pedigrees for our autosomal DNA testers tracing back into a male McCarthy line as mentioned above. If an autosomal tester's pedigree is part of a Y-DNA tester's known pedigree, it is grouped with the Y-DNA pedigree.

FTDNA Kit numbers are in bold, in the pedigree, along with a contact name and e-mail address.

'FF' – prefixing FTDNA's Family Finder kit numbers - indicates that the kit has been autosomal DNA-tested only.

If you are a member of the McCarthy Surname Study and wish to have your pedigree added to this 'library', please send it (in a format similar to that seen below) by email to Project Co-Administrator Zena McCarty Paice at [zenafay@aol.com](mailto:zenafay@aol.com). Please note that any births within the past 100 years and marriages within the past 75 years included in your submission may be kept on file but will not be shown in the publicly displayed pedigree. Also, if you believe you have already submitted the pedigree and do not see it, please contact Zena again.

If you wish to join the Study (preferably as, or by enrolling, a male McCarthy with a Y-DNA test), please contact Zena or Nigel (via the second of the above two web pages) for advice.

---
